

Matthews

2017 Sauvignon Blanc

The 2017 Matthews Sauvignon Blanc lots at Boushey Vineyard in the Yakima Valley are picked primarily at first light or at night when temperatures are lower. The Stillwater fruit is from a very small spot in our block that is picked earlier than any other to provide us with hints of green Guava and Passion Fruit rather than the typical Pineapple and melon tones that come from our later picks. The grapes from all three sources are hand sorted at the vineyard and then shipped to the winery in refrigerated trucks.

Although there were several fires throughout the region in 2017, the vineyards used for our Sauvignon Blanc were not affected by smoke taint.

We work quickly to get the fruit into the press as fast as possible. Fermented in 100% stainless steel and blended and aged for 7 months in stainless steel. In classic white Bordeaux style, our sauvignon blanc is blended with 13% semillon from Boushey Vineyard. We have blended semillon primarily for texture and weight.
